**Course Description:**

- Students will learn how to properly administer medications in an environment where nursing care is not required – such as group homes or residential care facilities.
- Certification course.

**Prerequisites:**

- None

**Pertinent Information:**

- MAT program is designed to provide training required by Oklahoma HB 1092 (May 87) and amended by HB 1880 (June 88).
- Its goal is to enable facility personnel to help meet the health care needs of residential care/group home clients safely and effectively.
- The class will also make the students aware of what constitutes liability when assisting clients.
- State law requires a minimum of 15 hours training, which this course covers, and at least eight hours of update training annually (see MAT Update).
- To be eligible for a certificate of completion, a student must complete the entire class. Absent hours will constitute a failure of completion.
- Students must be able to read and write at a minimum of an eighth grade level. Oral testing will not be conducted at Meridian Technology Center.
- Class moves at a fast pace. Student must be prepared to study outside of class in order to ensure success.
